

HITCHHIKING

= (Ad-Hoc-Carpooling) =

IN

THE

NETHERLANDS

This document contains 21 sheets with cardboards of popular and strategic cities in the Netherlands, meant for hitchhiking. The idea is to print one, or all, of these sheets on plain A3 paper. Fold the papers in length size. You can save paper by printing on both sides. This way you will need 11 sheets of A3 paper, and have a good collection of most of the essential cities for hitchhiking in Holland. Find a good cardboard with the size of a folded A3 (easy to find in cardboard boxes), or prepare something else to hold it. Use rubber band to keep the town name needed fixed to the cardboard.

For less common destinations you will still carry a black marker and cardboards!
Don't forget a good map, like Routiq Netherlands Road Map 1:250.000, sold at most petrol stations. Happy hitchhiking in Holland!
